About the Funds

The Spokane County budget is comprised of many funds. A fund is a self-balancing fiscal and accounting entity, which is segregated for a specific purpose. Following is a brief description of the different fund types.

The **GENERAL FUND** is the largest of Spokane County's funds. The General Fund accounts for all financial resources except those required to be accounted for in a separate fund. The General Fund consists of departments such as the Sheriff, Prosecutor, Auditor, Treasurer, Assessor and Parks. The General Fund is primarily supported by property tax and retail sales tax.

Revenue sources that are legally restricted to expenditures for specified purposes are accounted for in **SPECIAL REVENUE FUNDS**. The largest of the special revenue funds is the County Road Fund. Here, gas taxes, and Federal and State grants are specified for new road construction and maintenance of existing roads.

The resources for and payment of general long-term debt is accounted for in a **DEBT SERVICE FUND**.

CONSTRUCTION FUNDS account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by enterprise funds. Currently, Spokane County has only two Capital Projects Funds, one for Campus Improvements and the other for Park Improvements.

Services that are financed and operated in a manner similar to private business enterprises are accounted for in an **ENTERPRISE FUND**. An example is the Golf Course Fund, where the green fees pay to operate and maintain the facilities.

INTERNAL SERVICE FUNDS account for the financing of goods and services provided by one department to other departments of the County on a cost reimbursement basis. The largest internal service fund is the Equipment Rental and Revolving Fund, which sells equipment and materials primarily to the County Road Fund.

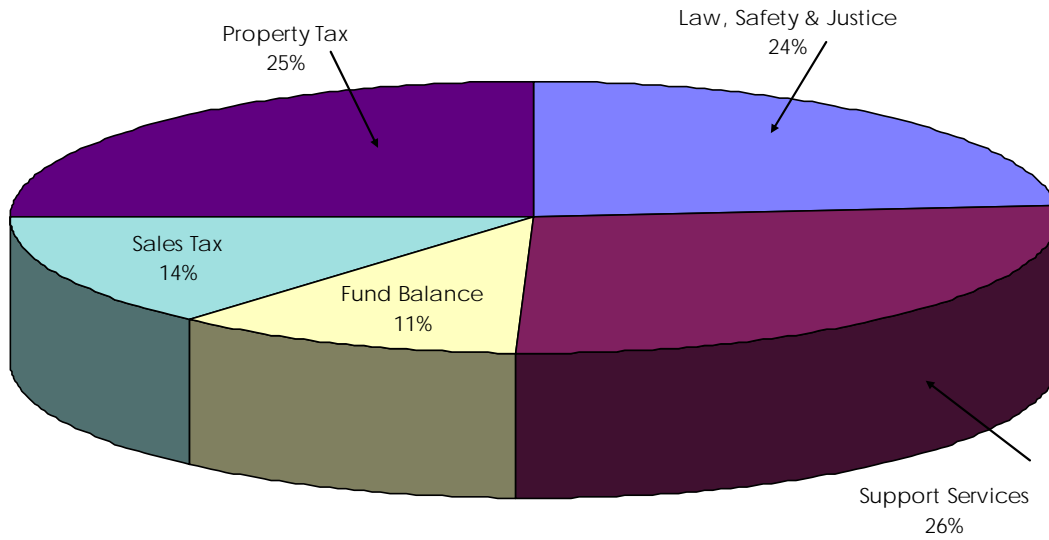

FIDUCIARY FUNDS are used to account for assets held by the County in a trustee capacity. The Newman Lake Flood Control Fund accounts for dedicated monies used to control the level of Newman Lake and to improve the water quality.

Commute Trip Reduction

The mission of the Commute Trip Reduction/Parking Program is to provide options and incentives for county employees to find alternatives to single occupancy vehicles as their method of commuting to work, in order for the county to meet the goals mandated by RCW 70.94.521-551. These incentives include: on-site sales of subsidized transit passes, preferred parking for carpools and van pools, subsidies for STA van pools, and encourage use of telecommuting and alternative work schedules. The program also strives to balance the use of available parking to meet the needs of the public and employees. Revenue is generated from fees paid by employees for monthly parking, by the public for hourly parking and through parking violations. No taxpayer money is used to administer these programs.

Dispute Resolution

State statute authorized counties to support dispute resolution centers so that citizens would have a way to settle disputes outside of the court system. Spokane County has recognized two such dispute resolution centers. District Court collects a surcharge on all civil and small claim filings which is then distributed to the two agencies in support of their mediation efforts. The District Court's objective is to oversee the collection and distribution of the surcharge and to monitor the specific performance efforts of the two agencies at the request of the Board of County Commissioners.

Tax Increment Financing

The Spokane County Board of Commissioners established the first Tax Increment Financing District (TIF) on December 18, 2001. The purpose of this district is to develop an area that will attract biotech firms. The TIF is located in the western portion of the unincorporated area of the County near the Spokane International Airport. It consists of 671 acres of industrial land.

Prior to improvements made by the developer the value of the land was \$29.9 million. The completed improvements include infrastructure of water, sewer, roads and sidewalks. Additional improvements include a bank and a hotel. After these improvements the value of this property increased to \$55.2 million, resulting in a \$25.2 million incremental value to the property. It is anticipated that future development will occur within the TIF that will increase the value of the land beyond the initial incremental value of \$25.2 million.

Only local governments are allowed by law to participate in a TIF. The \$102,231 in property tax revenue generated per year will be used to pay principal and interest on the tax increment bond issue of approximately \$1.2 million. The bond proceeds will be used to purchase infrastructure from the developer. After the bond issue is retired the taxing district levies will be restored to 100%. The developer has agreed to provide a letter of credit to the County for four years equal to the principal and interest amount on the bonds in the event the incremental value is insufficient to retire the debt.

Trial Court Improvement

A legislative initiative was passed in 2005 in an effort to achieve adequate, stable and long-term funding of the trial courts. It created local trial court improvement accounts to be used to improve court operations, allowing local jurisdictions to test new innovations, efficiencies and pilot projects. These accounts are funded locally with the savings realized from state funding of district and elected municipal court judges' salaries.

Worker's Comp

The mission of the Worker's Compensation Self-Insurance program is to provide claims support and adjudication of all employee occupational injury claims and to assist injured workers in returning to work as soon as medically and administratively possible. By providing loss control support to all County departments which include: hazard identification, assessment & corrective recommendations, the implementation of the accident prevention program and safety & health training, compliance can be maintained with Federal, State, & County safety and health statutes and standards, County wide on-the-job injuries can be significantly reduced while lowering Fund 505's overall financial responsibility.
