- Medical Assessment  
- Sobering & Withdrawal Management  
- Mental Health Crisis

\$\$

**Diversion/Shelter/Holdover Beds**

- Temporary reserved beds until longer term case management resources become available

\$

**Likelihood of Recidivism**

-10%  
- Often up to 3 repeat visits before life-readiness

\$

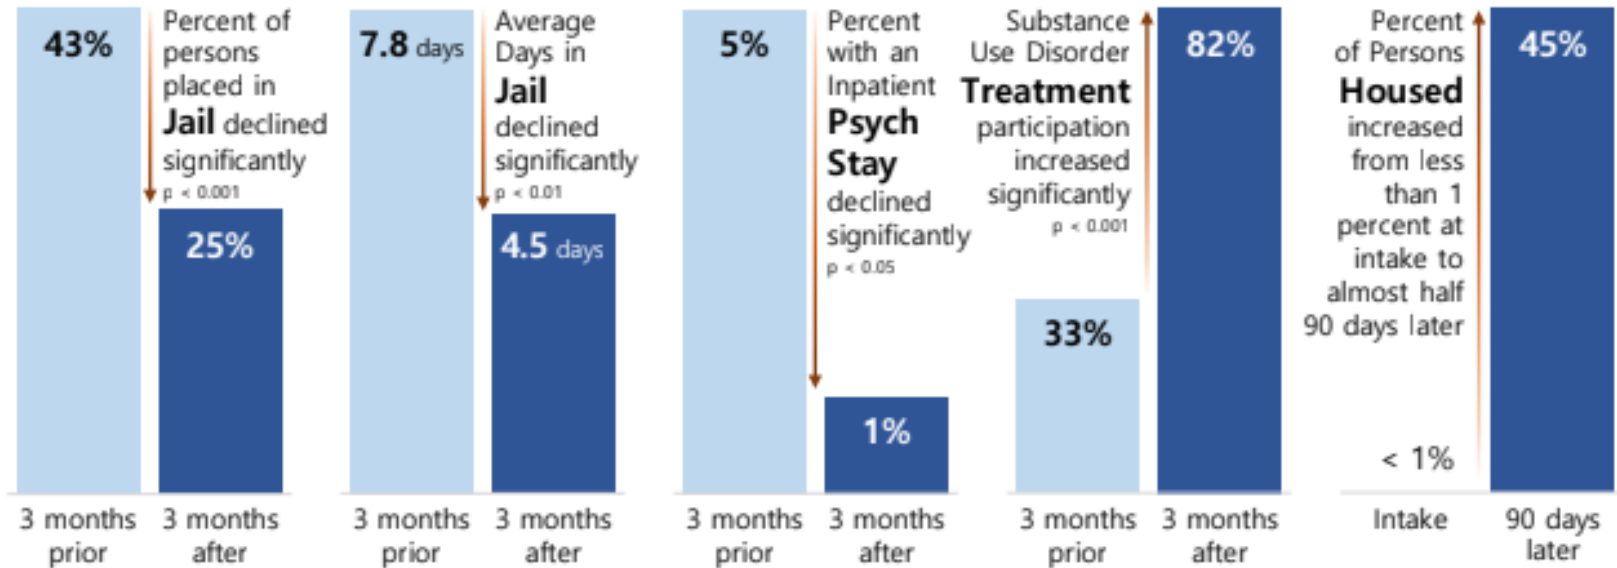

# Individual and System Impacts

Goal	Metric
Jail diversion	Number of people needing SUD and/or MH treatment are diverted from jail (including book and release as well as long term jail stays).
Reduce recidivism	Significant decrease in the rate of recidivism for patients.
Address inefficient re-entry	100% of patients are referred to appropriate level of care.
Lower ER utilization	Number of people arrested needing SUD or MH treatment who were diverted from the ER.
