- Sector 624 - Social Assistance
- Sector 721 - Accommodation
- Sector 722 - Food Services and Drinking Places

Please answer the following questions below and check all applicable boxes:

COMMERCIAL/INDUSTRIAL BUSINESSES

Does your business regularly wash vehicles on-site and discharge those wastewaters to the sanitary sewer?

Is your business a quick-lube station or perform heavy vehicle/equipment repair that discharges wastewater to the sanitary sewer?

Is your business a transportation fueling facility that discharges wastewater to the sanitary sewer?

Is your business not on the NAICS list, but discharges non-polar (petroleum-based) fats, oils, and grease to the sewer?

FOOD SERVICE BUSINESSES

Does your business prepare on-site meals and/or have dish washing activities related to food service?

Does your business manufacture food products on-site that contain fats, oils, and grease?

Does your business process food products, meats, or products that contain fats, oils, and grease?

Is your business not on the NAICS list, but discharges polar (animal/plant-based) fats, oils, and grease to the sewer?

If any of the above boxes were selected where your business has potential for grease discharge to the sewer, your business must be reviewed for grease control, and a properly sized and installed oil/water separator (OWS) is required for your business.

More information about OWS sizing, installation, and maintenance can be found at our website listed below, in the **Oil-Water Separator Fact Sheet** and **Oil-Water Separator Sizing Reference** documents, under **Commercial/Industrial Businesses - Non-polar FOG**.

If any of the above boxes were selected where your business discharges grease to the sewer, your business must be reviewed for grease control and a properly sized and installed grease control device (GCD) is required for your business.

More information about sizing, installation, and other requirements can be found at our website below, in the **GCD Sizing & Installation Policy** and the **GCD Sizing & Permitting Checklist**, under **Food Service Businesses - Polar FOG**.

If none of the above circumstances apply, and your business does not have grease-producing activities that discharge to the sanitary sewer OR if your business has an existing GCD, please check this box:
